

Solid Waste Division

Trash on Mackinac

The System

Mackinac Island uses a system of waste separation which divides compostable materials and recyclables from items headed to the landfill off island. The more the program is followed by our customers, the more money you will save.

While landfill destined materials are...

Recycling

The Department of Public Works sets the allowable material for recycling and handles the processing of the recyclable materials.

For questions on the times and dates of the collection of recyclable material, please contact the Mackinac Island Service Company at 906-847-3713.
